

DECADE II™

Raynor Traditions Series™

DELUXE • 1 OR 2-LAYER CONSTRUCTION
STEEL OR STEEL + INSULATION

“FOR AS LONG AS YOU OWN YOUR HOME” SECTION WARRANTY

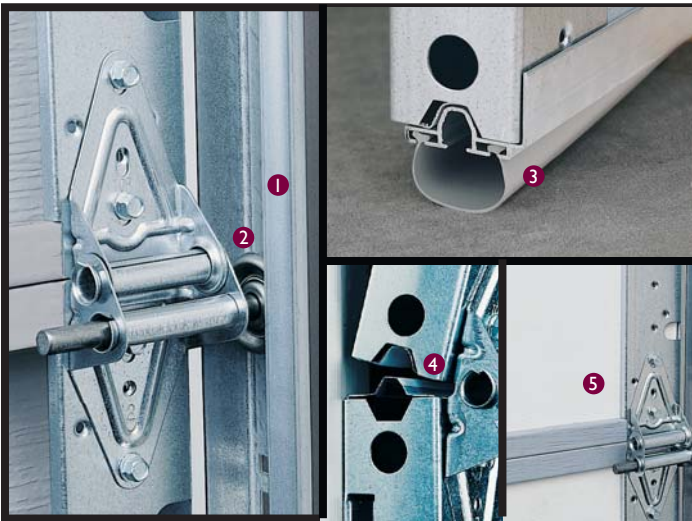

Rugged Inside, Outside And In-Between.

Decade II, with flush-mounted stainless steel rivets, welded stile/rail construction, hot-dipped galvanized hardware and steel ball-bearing rollers, is built to work as great as it looks.

Decade II features tongue-and-groove meeting rail joints to seal out the elements. And the optional, environmentally safe, expanded polystyrene insulation increases energy efficiency and provides you with quieter door operation—a big advantage if you have an attached garage.

Choose the color that complements your home from a palette of five, then add your favorite panel design and window style to create a door that is uniquely yours.

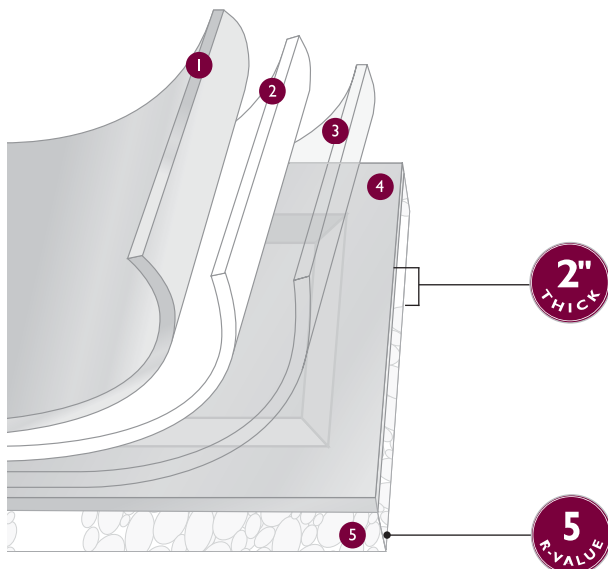

Built To Last.

Decade II has heavy-duty, 24 gauge hot-dipped galvanized steel sections with an epoxy primer and a baked-on polyester finish to resist rust and impact. A galvanized steel track ① and durable, steel wheel, ball-bearing rollers ② assure long-lasting performance. To protect against the elements, a bottom weatherseal ③ provides an effective barrier along the entire length of the door. Roll-formed tongue-and-groove meeting rails ④ seal out wind, rain and snow. Finally, a thick core of optional polystyrene insulation ⑤ helps keep your garage quieter and more comfortable.

2" Thick Door Sections

Decade II's 2" thick door sections are made from high-strength, impact-resistant 24-gauge steel.

- ① Baked-on finish
- ② Epoxy primer
- ③ Galvanized layer
- ④ 24-gauge steel
- ⑤ Optional polystyrene insulation
